DEPREDATIONS OF INDIANS ON THE LOWER KLAMATH.—We are informed by gentlemen from Gold Bluff that the Indians have been recently committing depredations upon the settlers and miners on the Klamath below Martin's Ferry. The house owned and occupied by Wm. Young was robbed of everything of value, including four Minnie muskets and one rifle, besides some ammunition, and the owner turned out of doors with the injunction that he must not disclose what had been done on pain of death if they should ever have him in their power again. They subsequently set fire to the house and burned it to the ground. Similar depredations were committed upon several other white settlers still lower down the river, 'Squire Lewis, being one; of the others' names we are not informed. Several Chinamen were also relieved of whatever they had in money and other valuables. The Indians did not murder any one. The band engaged in this raid are reported to be from Hoopa.
