> anana Alba OUTBREAK AT THE NOMEE LACKEE RESERVArios. The withdrawal of the U.S. troops from the above Indian Reservation seems to have had a bad effect, and in the absence of a sufficient force, the Indiaus are menacing the government property and lives of the agent and his employees. The San Eradeisco Sun, of Jan:-3d, has obtained from Capt. Chard the following particulars of an outbreak which occurred there week before last Quite a number of the Feather River Indians fled from the Reserve, and were pursued by two parties of men, one-under-the command of Mr. Stevenson, the Agent, and the other under that of another gentleman. Mr. Stevenson's party came up with the refugees, who immediately. showed fight, and an action commenced, during which three of the Indians were killed before the party could be made to submit - The other body of pursuers also overtook a number of the runawys; near the Sacramento river, but they snrrendered and were ordered to return under the conduct of one man. On their way back, two of the Indians suddenly seized their white conductor, pulled him from his horse, managed to shroud his head and arms in a poncho he wore, and while a squaw held him down in this predicament, commenced beating-him over the head with clubs. After Judulging in this past time for a while, their victim heing incapable of defense, managed to get at his pistol, when he rid himself of their attentions by shooting two of them on the spot, just as they were in the act of repeating their blows; having discovered that he was not quite dead.
