

Synopsis of the Governor's Message.

This document was sent into the Legislature, on Wednesday the 7th inst. It is quite lengthy, and taken together is decidedly fogish.

The Governor opens by thanking God that the country has got through the past year safe, and was not taken by the Kansas howlers or Vigilance Committee. The last named institution, he says, was rather heavy for him, their president having deceived him, the California-soldiers would not fight for him; Gen. Wool scolded him about the arms and munitions of war, and the President of the United States threw him off when he applied to him for assistance. The war, he says, closed on the 3d of December last, when he hung up his sword to rest. The Indian wars were hard to manage, but his experienced Generals have crowded the Diggers to the wall. The Klamath Rangers in thirty days active employment conquered a peace in Klamath county. In Siskiyou they had a more bloody and protracted time; but Gen. John Cosby of the 6th Division of California Militia, took the field in person, and did the business in gallant style. Thinks those ~~Indians~~ won't go upon the war path ~~again~~ about the ~~Peace~~ General Edward J. Beale, dried up ~~the~~ the necessity of a fight, at this time we have peace with all the tribes, is glad of it, but fears it won't last. Thinks the system of Indian Reservations within the State a bore. The message is sound on the finances; says our public debt must be paid to the last red; goes in for taxes on all occupied lands in the State, a tax on the fees and salaries of officers, on certain kind of paper except stamp act. Thinks Uelo Sam should pay us the \$2,700,512 13 which her military and civil officers collected off us, before we were admitted as a State; and that it should be applied to the payment of our bonds. Says we've spent \$4,131,127 31 more than we received since we've been a State. The deficiency for 1856 is ~~\$250,700 81~~ ~~is~~ down on Palmer, Cook & Co., for the survey trick they played upon us in not paying the interest as it fell due in the East—has sued them for \$75,000. Of the war debt \$218,020 07 is yet unpaid. Thinks Congress will soon show their good sense in paying that. He is in favor of a Convention for revising the Constitution upon very poor reasons; recommends that the question of Convention or no Convention be submitted to a vote of

It is in favor of a Convention for revising
the Constitution, upon very poor reasons; re-
commends that the question of Convention
or no Convention be submitted to a vote of
the people. Recommends that the Swamp
Land subject be looked into and measures
adopted; to get the people, who have pur-
chased most of them, out of the mire, and
clear away the fog from their titles. Wants
the school lands designated and reserved
from location and sale. The State Library
is all right. The revenue derived during the
last year from militia Generals has been
satisfactory; but they have run out of law
books and more should be printed.

The Insane Asylum is a good institution,
the new wing has been built and the estab-
lishment is very comfortable; regrets that
serious charges have been made against the
Resident Physician, thinks it would be
fair play to enquire into them.

Makes some very antiquated recommen-
dations to our laws, says the present attach-
ment law is no good, ought to reenact an
expelled law of 1850; wants divers altera-
tions made to the act relating to insolvency;
sympathises with the provident, industrious
wife, who is encumbered with a prodigal,
reckless, worthless husband; thinks she ought
not to run a saw mill or carry on a cannon
foundry; and wishes the law relating to
sole traders so amended that the community
at large won't be so badly sold, as at pres-
ent, by the aforesaid ladies. Recommends
amendments to Homestead Law make re-
cord of their intention to claim, so the public
won't be bamboozled. Is down upon divor-
ces generally; is opposed to referring facts of
the case to referees out of court; wants the
District Attorney to pitch in for the defence,
and thinks upon the whole that married folks
ought to freeze it out—it would be highly
moral.

Wants a law establishing a landlords lien;
recommends that the mortgage law be ex-
tended to include stocks, &c. Notary Pub-
lics should be elected; election laws amended;
a registry law passed; an amendment to laws
about taking depositions in chancery cases
so that they may be taken any place. Re-
commends a house of refuge be established
where obstreperous Young America can be
taken in and his morals improved.

Thinks the trial of certain misdemeanors
be transferred to the District Courts, that a
register of deaths should be kept, that another
State Prison should be built, and that
the printing business should be enquired into
with a view to reduce that expenditure.
The Militia laws are not right, the soldiers
are brave but the people don't pay the tax,
and if things are not carried on differently,
better disband the army.
The message is sound on the Pacific Rail-
road and overland Wagon Road, and winds
up by saying that he is ready to second any
constitutional measure they (the Legislature)
in their wisdom suggest which will advocate
the true interests of this commonwealth,
commending all hands to the superintending
care of a wise and bountiful Providence.

Going Up and Coming Down.

The simple way is to go up and come down. And come like this, it is not hard. And get well for a winter or two. These things, people think, and they never to look of much more to it. For it is not what you do, but what you do not do.
