Political Progress.—The Nevada Reporter, in an article upon the present position of political parties, has the following pertinent remarks: "The prevailing excitement will, we fear, lead the Southern delegation in the Charleston Convention to insist upon extreme measures, which Northern men will not tolerate, and upon candidates which they will not support. Mr. Douglas, months ago, announced his determination not to be a candidate, except upon the Cincinnati Platform, and neither he nor any other Democrat can be elected upon any other platform. If the Convention shall undertake to adopt a platform in contradiction to that upon which the party now stands, there will be an immediate division, and consequent defeat in spite of all obstacles. If the principle of non-intervention embodied in the Kansas-Nebraska act is to be abandoned at all, we are satisfied that a large majority in the Union will prefer to sustain intervention against extreme extension rather than intervention in its favor. In other words, the Republicans will defeat both wings of the Democracy, and open a new set of issues. Should such a result follow, the responsibility for the defeat of the Democracy will rest upon the shoulders of the men who may be elected to the office of President. We have hopes that the delegates from all parts of the Union may be sound, conservative men, ready to make concessions and unite to protect the best interests of the country against a sectional party. But if they unite for a different purpose—and undertake to fight one sectionalism by upholding another, the Democratic party will have disbanded itself by its own act, and placed itself voluntarily in the hands of its enemies."

Federal Officials.—The principal Federal office holders of California were promptly notified and summoned to organize the Legislature on the 15th inst. Among them were, U. S. Washington, Collector of San Francisco; T. L. Solomon, United States Marshal; C. L. Welch, Postmaster, San Francisco; John Ferguson, United States Mail Agent for the Pacific coast; Geo. Ten Johnson, United States Commissioner; A. E. Smith, Surveyor General; W. B. Dinsmore, Surveyor of the Port; Richard Roman, Civil Engineer; Frank Tilford, Naval Officer, April Department; Superintendent of the Mine; J. A. Henshaw, W. S. M. Johnson, Weigher and Measure; W. H. Hottel, Refunding Clerk; J. A. Porter, Captain of the Watch; and John Perry, Jas. Jacob, and Edward Cahoon, of the Custom House. All the above are stationed at San Francisco. Besides these, we had A. Lester, Collector of Stockton; W. G. Ross, Collector of San Pedro; V. E. Geiger, Indian Agent at Nome Lacker; W. T. Harvey, Land Officer, Los Angeles; and how many more, the Sacramento papers have not recorded.

SENATORIAL.—We are taking no special pains to discover who is the choice of our friends hereabouts. Most of them probably feel we do not want it, none of our friends—and very few their minds much about the Senatorial question. Whether we have a Senatorial candidate, we have not yet decided upon having one. It is a matter of course, that we have not yet decided upon having one.

COFFIN'S UNLUCKY REVENUE IN A WIGGLE BOX.
An hour to an hour, while engaged in untying or tying himself; and one evening last week he was tied so effectually that he found it impossible, after trying two hours, to extricate himself. He accounted for the failure, by saying that the spirits were offended by the disturbance of the wiggle box.

CONGRESSIONAL DEBATES.
We copy the following from the debates in the House of Representatives, while the contest for Speaker was pending.
On Friday, Dec. 9th, Logan, of Illinois, spoke in reprobaton of the course of the Republicans of Illinois, and urged the Anti-Lecompton Democrats to act with the Democratic party.
Clark, (A. I. D.) of New York, asked Logan if he approved the Territorial policy of the Administration.
Logan wanted past issues to sleep in oblivion. Douglas' position was known, and that was enough.
Clark asked if the Democratic nominee would organize the Committee, and if Kansas would be admitted without restriction.
Logan had never asked the question; it had never entered his mind; he had quite confidence in the nominee.
Clark, of New York, (A. I. D.) asked if the Charleston Convention should adopt a platform opposed to Douglas' views, and indorse the policy of the Administration, if he (Logan) would support the nominee?
Logan said he was twenty-eight, and had lived long enough to discover that the Democratic party never does wrong. The party has never indorsed a platform which was not in accordance with his views, and he would vote for the nominee of the Convention anyhow.
Haskell said: "I will not." He asked Logan if he believed the Territorial Legislature of Kansas could exclude slavery or abolish it?
Logan professed to be a Democrat, neither Lecompton nor Anti-Lecompton—Stephen A. Douglas Democrat, first, last, and all the time. If he is not nominated, I am for the next man; that is the man nominated.
Haskell asked if he would sustain the nominee if the platform protected slavery in the Territories?
Logan:—"Wait till the Democratic Platform does that, and I will tell you."
Haskell said the Republicans of the last session put themselves squarely on the Anti-Lecompton platform. He was in favor of the organization of the House, and held in abhorrence the appeals made to him to support those who sustain the policy of this Administration. He would never vote for any man for Speaker who voted for the Lecompton policy of the Administration. He would vote for the nominee of the Convention, if any gentleman on the Republican side of the House who comes nearer to his platform than the gentlemen on the other side who voted for the Lecompton Constitution. Furthermore, he would do all in his power to prevent an organization of the House by the election of an Administration candidate.
