

TWO MORE KILLED.—On Saturday last, two men—Wesley Sumption and Hitchcock—were out looking after stock on the Luqua Ranch, when they heard the report of an Indian gun down in a gulch. It being foggy, the whites succeeded in surprising the Indians, coming on them soon after they had killed one of Titlow & Prince's work oxen, and were engaged in cutting it up. There were four Indians in the lot, one of whom had been posted some distance off from the balance as a look-out. Sumption shot and killed him on the spot, and while Hitchcock broke to get the Indian's gun, Wesley gave chase to the balance. The dogs singled out one and chased him for a near a mile before Sumption came upon him. He overtook him, however, and finished him by shooting him four times with his pistol. The gun taken from the first Indian was recognized as the one formerly belonging to Henry Lemcke, murdered by Indians two years ago. The other two Indians escaped in the red-woods.

The body of Peter Norman, lost overboard from the tug four weeks ago, was found on the beach opposite this town, on Sunday last.

On Monday last John Shannahan, for the past six years a trader at Bucksport, was arrested by order of Col. Lippitt and confined in the guard-house, at Fort Humboldt, where he at present remains. The nature of the offence for which he is imprisoned has not transpired, but it is thought that he is charged with buying Government property from soldiers and disposing of it to citizens.
