

~~Movement of Soldiers.~~—Lieut. Morgan, who is in command of the United States forces at ~~Nome Lacke~~—Rescrvnton, says the *Tehama Advocate*, passed through this place on Wednesday last, en route for head quarters. He will at once remove such number of his men as have been disabled by sickness, or otherwise rendered incapable of performing active service. They will be conveyed to Benicia, and exchanged for able-bodied men. Lieut. Morgan has, since he has been stationed near us, made many friends—is spoken of as a very efficient officer; and as an affable, courteous gentleman he has few superiors. He is every inch a soldier, and would do good service in Mormondom or elsewhere, when called on.
