

Volunteer Company - Immediate Action Necessary.

According to previous announcement, as authorized by the County Judge, a meeting of the citizens of Eel river took place at Hydesville, on Saturday, Feb. 4, 1860, for the purpose of organizing a Volunteer Company. Hon. E. L. Davis presided, Henry Stern, of Union, acting as secretary. The Company was duly organized, according to law. The following officers were elected:

Capt. Wright, Capt.; E. D. Holland, 1st Lieut.; Henry Robinson and William O. McNamee, 2nd Lieuts.; Eli Davis, N. Stansberry, G. Gray, J. O. Corder, Sergeants; T. Wyatt, S. Ferguson, N. Underwood, S. Luce, Corporals; and 55 privates.

Capt. Wright was in town on Monday, and forwarded a notice of the organization, together with a bond for arms to Senator Ryan, so that the attention of the Executive might be called to the emergency in which our citizens in the Bald Hill country are placed. A portion of the command proceeded forthwith to the scene of hostilities, and the remainder, with Capt. Wright at their head, left this week. It now only remains for the Governor to call this Company into the service of the State. Pending this action of the Executive, the Company will be in active service, the great peril of life and property on our Eastern county border, rendering it absolutely necessary for them to take the field, equipped as well as possible, and supplied at the expense of our merchant traders, until the matter is taken in hand by authority of the State. The State should also appoint some suitable person in this county, to act as Quarter-Master to the expedition so that the Company can be properly supplied, and a correct estimate of expenditures arrived at in the end.

Our Senator and Representative are called upon to give this matter particular attention at as early a moment as possible, as the Indians are daily becoming more bold and their outrages more frequent.

THE HUMBOLDT TIMES.

EUREKA, CALIFORNIA, SATURDAY, FEBRUARY 11, 1860.

<p>THE TIMES. A WEEKLY PAPER. PUBLISHED EVERY MORNING, BY J. B. KELSEY, Proprietor. No. 101 Main Street, Eureka, Cal. Subscription price, \$1.00 per annum in advance. The subscribers would most respectfully inform the citizens of this place and the public generally, that he has taken this HOUSE, which he kept in superior style, and supplied with the most choice WINE, BEER, and the San Francisco MARKET, and no expense or pains will be spared to render it worthy of the patronage heretofore so liberally extended to it. MEALS SERVED AT ALL HOURS. Board and Lodging will be at the following rates: Board and Lodging, per week \$7.00 Board and Lodging, per day 25</p>	<p>Union Forester! A DEMOCRATIC SLOGAN. BY WALTER ANONIM. The Locust sounds its warning strain, Dinnion fires its warlike train, Unfold your banner to the breeze! The emblem of a Nation's cause— Our hope, our faith, our destiny— Blend with the Union and the Law! Charge then upon the insidious foe; Drive the foul traitors from the field; Upon the Patriot's sacred shield. Harmless shall fall the assassin's blow Speed! let the rallying cry go forth, At in the glorious days of yore; No street or South, no East, nor North But Union! Union evermore! Dunned that hypocritical brand, And stamp it with the Locust's brand, Which, with the mantle of the Lord, Conceals its patriarchal head, Let us, ye patriotic white, Decare to those selfish "his" and "hers," Display, with patriotic pride, Your motto: Union and the Law! Still on your banner every star</p>	<p>Leap Year.—The year 1860 is Leap Year, and consists of 366 days, one day being added to the shortest month, February, which will, therefore, have twenty-nine days in this year; and on its last, or additional day, is claimed by the ladies a privilege which belongs to all other times to the gentlemen—the privilege of "popping the question." Leap year occurs every fourth year, and is so called because it leaps over a day more than does an ordinary year. For instance, in other years, if Christmas day or New Year's day fall on a Sunday, it will fall on Monday in the following year; but in Leap Year, it will fall on Tuesday, being thus two days later in the week instead of one. The necessity for Leap Year arises from the fact that the solar year does not correspond exactly with the civil year in consequence of its ending with a given day; but with a fraction of a day. If it were not for this arrangement, Christmas, in course of time, would be in midsummer, and the Fourth of July in the depth of winter. The true year consists of 365 days, 5 hours, 48 minutes, and 46 seconds. The revolution around the sun, which is determined by its coming back to the same point in the zodiac from which it started, and this is accomplished in 365 days, 5 hours, 48 minutes, and 46 seconds. The earth makes one complete revolution around the sun, which is made up of a whole day when one is added to the year, making what is called a Leap Year. This, however, is not strictly correct, for it</p>	<p>Poor Boy!—When I arose this morning, I found my noble dog "Rolla" in the last agonies of death, from my machine given him during the night. Hoping to save him, I immediately administered remedies; but it was too late. The work of the midnight assassin was complete. Perjury was heard and terrible such as I hope the streets who administered the dose may never feel a brilliant accession through his unjust frame, and in a few minutes he was dead! Noble dog! in his last death struggle when his whole frame was stiff and bristled with agony, his mistress, leaning over him, called his name; recognizing her familiar voice, that had never spoken to him then, words of kindness—unable to make any other response—he gave her one look of what I repeatly call "correspondence" exactly with the civil year in consequence of its ending with a given day; but with a fraction of a day. If it were not for this arrangement, Christmas, in course of time, would be in midsummer, and the Fourth of July in the depth of winter. The true year consists of 365 days, 5 hours, 48 minutes, and 46 seconds. The revolution around the sun, which is determined by its coming back to the same point in the zodiac from which it started, and this is accomplished in 365 days, 5 hours, 48 minutes, and 46 seconds. The earth makes one complete revolution around the sun, which is made up of a whole day when one is added to the year, making what is called a Leap Year. This, however, is not strictly correct, for it</p>	<p>Solid Porro!—I have seen this morning, a person of all fair the import of the matter with me. I have seen this morning, a person of all fair the import of the matter with me. I have seen this morning, a person of all fair the import of the matter with me.</p>
