

ROAD TO NOME LACKEE—Several citizens have recently expressed to us a desire to have a good wagon road opened from here to Nome Lackee. The advantages of such a road to our town must be apparent to every one, and we see no reason why it should not be made at once. We are told by those who have travelled through on horse back, that a good wagon road can be made, by the way of Smith's Ranch, for a few hundred dollars, and that the distance is not over twenty miles. The proprietors of the newly discovered coal bank near Nome Lackee have expressed a willingness to assist in the matter. Who will make the first move?

THE RED BLUFF BEACON.
