

INDIAN DEPRIDATIONS.—On last week, Friday night, the Indians killed four milch cows at "Hempfield's Ranch," belonging to Mr. B. Croghan. The people in the northern portion of the county have concluded that it will not answer to wait for assistance from Government but are raising a fund to keep a small volunteer force under arms for an indefinite time. Over six hundred dollars has been subscribed at Arcata which will be much increased by donations from settlers in that section.
