

THE INDIAN WAR DEBT.—The Sacramento correspondent of the San Francisco *Herald* says that Mr. Burch has written to the Governor confidently predicting the success of the bill now before congress for the payment of some \$400,000 of the California Indian War Debt.—
Of this amount, California has disbursed upwards of \$150,000 in cash, which sum the bill will return into the State Treasury. But the \$400,000 does not cover much more than one-half of the debts due by the General Government. Mr. Phelan, who perhaps alone in the State understands the figures, has made a statement in which he shows that the debt exceeds \$750,000. So another relief bill will have to engage the attention of our Senators and Representatives."
