

**MOVEMENT OF TROOPS.**—Lieut. Lynn returned from the mountains with his detachment on Tuesday. Lieut. Collins will take the field early next week, with all the available force now at Fort Humboldt. We understand that orders have been received at Fort Humboldt to "*protect the citizens of the county against Indian depredations,*" and we hope it may be done. It is, we are lead to believe, the intention of Gen. Johnson to furnish the men and means to carry out his orders. It will be among the first duties of Lieut. Collins to report as to the necessity of a military post in the interior, and the most suitable place for its location. Mr. Collins is an active and judicious officer, and will no doubt perform this duty with promptness and fidelity.
