

POSTSCRIPT.

BY THIS MORNING'S BOAT.

Through Freeman & Co.'s Express.

The steamer New World arrived at her landing, this morning, at 1 o'clock.

The Alta says the bankers in that city have refused to receive on deposit either ingots of gold or any other California coin than Moffat's.

The Stockton Times of the 2d inst. says that a difficulty took place on Saturday evening previous, between Judge Jones and one of the proprietors of the Louisiana Ball Room. Two shots were fired, but without injury to either party.

The same paper publishes an extract from a letter dated "In Camp on the Chowchilla, March 25, 1851," stating that treaties had been made with eight different tribes, and that they expected to start in a few days for the Fresno to treat with the most hostile tribe in California, who have committed nearly all the murders, and stolen mules enough to pay the entire expenses of the expedition—the Chowchilla Indians.

The Indians have been committing divers depredations in the vicinity of San Louis

THE INDIANS HAVE BEEN COMMITTING GREIVIOUS depredations in the vicinity of San Louis Obispo. Gen. Bean was on the eve of leaving Los Angeles with sixty men to attack the Indians and recapture the stolen animals in their possession.

Gen. P. F. Smith has been relieved of the command of this Division, and will be succeeded by Gen. Brooks. Gen. Smith is ordered to the Texas Frontier, and will, we understand, sail on the next steamer.—[Bal.
