
Difficulties with the Indians.

The Rough & Ready Diggings are situated on Deer Creek, below the town of Nevada. The Indians in the vicinity have for some time back troubled the whites by stealing their cattle. The miners became more and more exasperated, and finally a party was formed, who went out in search of the depredators. The whites are also continually stealing cattle and mules on the road. The last news was a rumor that the thieves had been found, and that twenty-five of the Indians had been killed.
