From CRESCENT CITY.—We are indebted to Sheriff Holt, of Klamath, for the Crescent City Herald of the 2d and 9th inst., received at Trinidad by the Goliah on her down trip.

The Herald of the 9th notices the appointment, by Collector Latham, of R. N. Snowden as Inspector at that place vice S. H. Grubbler, removed.

We notice also that our neighbors up the coast are taking steps to organize a volunteer company. The same number of the Herald mentions the formation of a "Dramatic Club;" at that place, for the purpose of entertaining the citizens in the histrionic line.

The business prospects, in consequence of the continued Indian disturbances in the Rogue-River-country, are exceedingly gloomy. The Herald says, on this head:

The intercourse between Crescent City and the interior being hitherto carried on principally by the route through Illinois and Rogue River Valleys, infested by hostile Indians, we may, until peace is re-established, expect to as it has been nearly annihilated during the past winter. The prospects for a speedy neace are at the present moment anything thattering although we are certainly nearer, a realization than we were six months ago, when it was thought that three months fighting would clear the red-skins out of Oregon Territory.

those in command to dispel this dark cloud from the Northern horizon as speedily as possible. Our countrymen in that section have a right to be protected in life and property, and it is a lasting shame on those whose business it is to put an end to this Indian war, to suffer things to drag along as at present.
