

HUNTING INDIANS.—A new plan has been adopted by our neighbors opposite this place to chastise the Indians for their many depredations during the past winter. Some men are hired to hunt them, who are recompensed by receiving so much for each scalp, or some other satisfactory evidence that they have been killed. The money has been made up by subscription.
—Red Bluff Beacon.

GEO. R. LANGASTER, Proprietor.

NEVADA-DEMOCRAT, APRIL 20, 1859.

Editor Douglas's Position.
The Sacramento Standard, in reviewing the adventurous career of our representative of the Territory, attempts to show that the position of Senator Douglas is inconsistent, and that the same objection which is made against him in his former position, holds in the same against him now. Mr. Douglas admits that the people of the Territory are in a state of anarchy, and that there are circumstances under which a law may be withdrawn by a repeal of the law creating the Territory. In the same manner, he says that in the Kansas Territory, the subject of slavery, but that that question should be left wholly and solely to the Supreme Court; that the question has been submitted, and it has been decided that there is no power in the Territorial Government to exclude slavery, and that the Territories are under a martial law, and that the Territorial Government is a mere agent of the United States Government.
