

**HOOPA MATTERS—MOVEMENT OF TROOPS
AND CONDUCT OF THE INDIANS.**—Captain
Underwood, in command of Fort Gaston,
Hoopa Valley, informed Capt. Lovell, of
Fort Humboldt, by letter bearing date
April 29th, that he sent out a detachment
~~of 25 men the day previous, which was~~
all he could spare at present from his
post, "owing to the great excitement
existing among the Indians in the valley,
arising from the fact of their being com-
pelled to deliver up all their arms. The
Indians belonging to one of the largest
ranches in the valley, have left for the
mountains, taking with them a portion of
their arms, a supply of provisions, and
all their movable property."

In speaking of the volunteer guides,
Capt. Underwood expresses his obliga-
tions to Capt. Lovell for sending him
"such good men." He says: "The ut-
most good feeling exists between the
guides and our men,—especially between
the non-commissioned officers in charge—
they left here in excellent spirits, and I
am confident that if they can get into a
brush with the red-skins, they will give a
good account of themselves."

John Alcohol my Joe, John, we have been too long together, and I will take another, for we meet tonight, above John, if hand in hand we go, and I will have to foot your bill, John Alcohol, my Joe.

NUMBERS OF WORDS EXACT. From a report of one of Hon. George P. Marshall's lectures on the English language, we take the following interesting extract:—

The number of good English words found in use by good writers could hardly fall short of one hundred thousand. But we know these mainly as we know Greek, as book-words, and not as the language of speech. Even if a man was able on extraordinary occasions to bring into use in wordy battle, half of that number, he probably "bought" himself with far fewer. Each individual used in his daily life, a repository of words, of some extent peculiar to himself, which would furnish a key to his private
