

SAVAGE RETALIATION.—Should it be satisfactorily proved that Col. Stevenson's family were murdered by Indians, the citizens of Tehama county will be reminded that Indians do not always retaliate on those who are hired to kill their numbers by the head, but on innocent and unprotected families of women and children. The course lately pursued in that county is not the proper way to rid themselves of these blood-thirsty pests, as the late terrible calamity may prove. We hope such is not the case.
