

INDIAN DEPREDACTIONS.—We hear of still further outrages having been committed by Indians on the property of C. Brehmer and others near "Bliss Slide," Mad river. On Sunday and Monday, 12th and 13th inst., they killed several head of cattle, among others a pair of work oxen belonging to Mr. Brehmer, and drove off fifty head of his cattle. The Indians are growing so bold that they approach the dwellings and plunder all species of property. The Starer Brothers have been robbed of more than two thousand dollars worth of property by these dingers, within the past four months. Every settler in that portion of the county has suffered more or less from their depredations. It will be impossible for white men to live there much longer if this state of things is permitted.
