

TO BE REMOVED.— We learn that an order has been sent up for the removal of Lieut. McCleary's company, to Carson Valley. From all reports Lieut. McCleary is an officer of merit, and would no doubt render us aid if his knowledge of what we require could prevail, contrary to the orders of an old granny officer who sheds crocodile tears over the fate of the poor diggers. Under our present state of military affairs we would be measurably better off if the whole of Major Raines' command was removed.
