

INDIAN WAR BONDS.—The bill authorizing the issuance of State bonds for the expenses incurred in the Klamath and Modoc Indian wars, passed both Houses of the Legislature, but was pocketed by Gov. Downey, and therefore killed. Much as we approve the general course of the Governor, we think he has made a great mistake in this instance, for the bill was eminently a just one, and even if he did not think so, he should have returned it with his objections manfully as he did with other bills, and not pocketed it.—*Cres. City Herald.*

Governor Weller would'nt have done that, would he, Pomroy?
