

~~INDIAN MEETING~~ --- A call for a meeting to take into consideration the best mode concerning domestic Indians now residing in families in this county, will be found in this paper. We merely call attention to the matter, without endorsing the propriety of it.

~~ACCORD~~ --- Wm. P. Mayhew informs us that Indians were prowling about his place on Deer Creek, Saturday night, but owing to a regular guard being stationed there nightly, they were not able to do any damage. One shot was fired at them which caused them to decamp immediately. As grain is now ripening, farmers should look to their interest and keep sentinels constantly about their fields.
