

The Indian Campaign.

Lieut. Tom. Middleton, of Capt. Miller's Company of "Mountaineers," arrived from Humboldt on Thursday. From him we learn that the other companies of the Battalion are nearly full, and will be put into service without delay. Lieut. Col. Whipple had arrived at Eureka with a full supply of clothing, arms, munitions, etc., for the Battalion. Clothing, blankets and provisions will be issued to all recruits as soon as they arrive, but no Company will be furnished with arms until the adequate number of names are on the muster roll.

The Trinity Company is nearly full, and in common with all citizens who have the welfare of this, as well as the neighboring counties at heart, we hope to see the whole Battalion actively engaged before the 1st of July. There is a large amount of work to be done, and the men enlisted for this service will be required to remain for three years, or until the Indians in the coast counties are thoroughly subjugated and removed to some secure location. It therefore behooves officers and men to go to work with a will, and rid the country of these pests in the shortest possible time. Of all the coast counties Humboldt has suffered most, and will continue to suffer, until the Indians are entirely removed from her borders. For this she may in a great measure thank the present Superintendent, Hansen, who to accomplish his own speculative ends at Government expense, and the expense of the lives and property of the hardy pioneer of Humboldt county, did remove a portion of the Indians of Humboldt county to a Reservation in the adjoining county of Del Norte, (which he desired Uncle Sam to buy) but neglected to provide the proper means to keep them there. We are informed that he will be speedily succeeded, and right heartily we hope the information is correct. Hansen may be a good man and citizen; but he has not done his duty as Indian

the adjoining county of Del Norte, (which he desired Uncle Sam to buy) but neglected to provide the proper means to keep them there. We are informed that he will be speedily succeeded, and right heartily we hope the information is correct. Hansen may be a good man and citizen; but he has not done his duty as Indian Agent for this portion of the Pacific coast.

Trinity county has also suffered much of late. The citizens of lower Trinity have fled from their homes, obtained by years of toil and privation. Their dwellings will be burned, their cattle driven off, and their crops destroyed. The entire river from Taylor's Flat, in this county, to Hoopa Valley is deserted, and must necessarily remain so until settlers are assured that there is no further danger. As matters now stand the lives of the citizens of Hay Fork and Hiampom are not safe for an hour. It is known that large bands of Indians rendezvous in the mountains of that section, and no one knows at what moment they may rise to murder, pillage and burn.

The "Mountaineers" are called out for the purpose of exterminating, or collecting for removal to some isolated Reservation, the Indians of the coast counties. Let the work be done quickly and surely. It is a necessity which can be no longer delayed. Let every man of the new Battalion feel that to him is entrusted this particular duty, and the work will be speedily done.
