

INDIAN OUTRAGES.—The steamer Panama arrived on Thursday from Crescent City, and brings intelligence of Indian outrages upon the settlers in Humboldt county. On the evening of the 6th inst., about seventy-five Indians made an attack upon the house of Mr. Daby, five miles from Arcata, and the inmates fled to the woods, and scattered in different directions as their only chance of escape. Mrs. Danskin, the mother of Mrs. Daby was killed, and a Frenchman named Nizet had not been found, and is supposed to be dead. Mr. Daby, though wounded, reached Arcata the next morning, and a party immediately started out. About two o'clock in the afternoon they met Mrs. Daby, badly wounded in one arm, and with the other bearing her infant. She had secreted her other two children and they were afterwards found. Two soldiers and an Indian boy who were at the house when the attack was made were also wounded, and a little boy named George Danskin was taken prisoner by the savages. When Mrs. Daby fell wounded, the Indians told her they intended to take the lad with them, but did not wish to kill her or her children. Finding that Mr. Daby and the soldiers had escaped, the Indians returned robbed the premises and set fire to the buildings. About nine o'clock the next morning, a portion of the same gang attacked the house of Mr. Muhlburg, who escaped with his wife, and after burning his house the savages took to the mountains. Several other outrages were perpetrated, and the citizens of Eureka held a meeting and resolved to make another appeal to Gen. Wright for protection.

Nevada Democracy.

Matters in Texas.
A letter from Texas dated March 17th, says:

They keep hanging men in the eastern part of this State for suspected sympathy with the Federal Government. The condition of society is the worst possible. The most ferocious sentiments are expressed by our women. The burning of houses is advocated by our Governor, and nothing is talked of but destruction. The antipathy to Northerners is perfectly frigid, and, strange you may think it, the most canaliculous among us. There is a degree of savagery and ferocity among them that all belie.

All the news we get is one-sided. We hear little except of splendid victories by the Confederates, and the destruction of thousands upon thousands of cowardly Yankees. For a man to admit the probability of defeat is to bring down upon him fierce wrath and denunciation if nothing worse. Northerners are persecuted here, and the life of such is not worth living. After the battles of Folsom Creek, Fort Henry and Fort Donelson, the vigorous spirit was perfectly maddening. This thirst for blood is so paralyzing. Thousands of men are going off to fight, and it is said that Johnston has 300,000 men near Decatur, in Alabama.

Some people think that if the Federal arms should triumph, the country would never be reduced to submission. I do not think, however, that the feelings of hatred could be increased beyond what it was before the war. There was a conspiracy to destroy the Union and overthrow democratic institutions in progress for years, and notwithstanding that I heard and saw the movements of individual conspirators, I did not believe it until after the war began, and the mails were stopped. Then by putting that and this together, and comparing notes with friends, the whole thing was plain. Thousands, nay millions, were rushed into the war with the expectation that some sort of a military arrangement would be made that would crush the democratic element effectually, restrict suffrage, prohibit naturalization and gradually introduce a monarchical element so lurid, in fact that it would not be discovered until too late.

The democratic element is still strong among many of the people, but the leaders among them are not so numerous as they were at first, and are not so successful as they were at first.

All these things the Richmond Examiner said. A year has passed, and it says: "The destiny of the Confederacy is trembling on the result of Yorktown. If successful, it will give us six months for carrying out the conscription act, arming and equipping a large army, and launching a fleet of Merimacs; but if unsuccessful, Virginia is lost."

The action of these church-burners, four plunders, twin groundings has no lessons for any but their Northern masters," said the Richmond Dispatch last year. Last week it says: "We may expect to hear of disasters wherever the enemy's gunboats can be brought to bear on all the points still in our possession.... Having made himself master of the rivers and sea-board towns, the enemy, if he wish to conquer us, must come into the interior. There he will have to beat our armies without the aid of his iron-clad boats, before he can boast of having subdued the country." "But these mercenary hirelings, these Arnolds, are influenced alone by the thirty millions of silver and are not possessed of a

Southern Papers Then and Now.
There can be no more pregnant and more Africane contrast than the tone of the Southern newspapers a year ago and to-day. The wild yell of defiance, rage, contempt and execration which burst from them then has significantly changed.

"The North has no officers to command or drill the cowardly, motley crew of hireling foreigners and operatives that it proposes to send South to fill ditches and dig for cannon, because it has no room in its penitentiaries and poor-houses to receive or maintain them." "Our people can take Washington, they will take it, and Scott the arch-traitor, and Lincoln, the beastly combination, can not prevent it. The just indignation of an outraged and deeply injured people will teach the Illinois Ape to repeat his course and retrace his journey across the borders of the free negro States more rapidly than he came; and Scott, the traitor, will be given an opportunity at the same time to try the difference between Scott's tactics and the Shaughtal drill for quick movements." "It is not to be endured that this flight of Abolition harpies shall come down from the black North for their rooms in the heart of the South, to defile and brutalize the land." "They never did fight, and never will fight, except for pay, for pillage, and plunder. Once satisfied that no money is to be made, no plunder to be gotten by invading the South, and no power on earth can Jass and Kick them south of Mason and Dixon's line."
