

TO CORRESPONDENTS.—We have received two letters this week for publication, one from Fort Gaston and one from Fort Baker. As the one from Gaston refers principally to Lt.-Col. Olney's blunders we decline it for the reason that he has been called away from there. The other one, from Baker, is long and well written, but as it treats mostly of a description of the country through which Company A passed in reaching their destination, which is already familiar to our readers, we decline that also. We hope, however, to hear from our young friend, "J.," often, as in future his letters will keep us posted in the passing events of the company. His first effort is a good one, and we hope it will not be his last.
