

OPERATIONS AGAINST THE HUMBOLDT INDIANS.—According to the Humboldt Times of June 21st there were three companies of the Third Regiment of Infantry in Humboldt District. They would be relieved by an equal number of the Second Infantry from Washington Territory, and will rejoin their own regiment under Col. Connor. Company A has been in constant service for several months against the Indians, with success. They have killed forty Indian warriors and taken 275 prisoners, about one-sixth bucks, the rest squaws and children. Little George Danskin is still in captivity. Fort Humboldt has been garrisoned by Company E, Second Regiment.

EASTERN ITEMS.—The following items  
were received by the overland telegraph on  
the 5th:  
New York, June 28.—The steamer  
Marian, from New Orleans, May 28 has arrived.  
The soldiers convicted of their were sent  
to be shot on the 31st May.  
Col. Kimball, with 2 companies of the  
21st Maine, had broken up the camp at  
Monrovia, at which for some time 1,800 re-  
fugees had encamped. They did on our ap-  
proach, having the camp equipage and reg-  
imental colors.  
WASHINGTON, June 28.—A special dis-  
patch to the New York papers says: "There  
is a report to be believed that New York has re-  
ceived a note from Earl Russell touching  
General Butler's proclamation regarding the  
women in New Orleans."  
Letters from Prince Napoleon, by the  
last European steamer, show that he still  
firmly holds the view that he will  
since the rebellion broke out.  
We apprehend that a resolution is looked  
for for the expulsion of Senator Simmons  
from the Senate, for receiving a commission  
for service in procuring contracts from  
Government. It will be introduced soon.  
A report has been issued from the Adju-  
tant General's office, prohibiting indulgence  
in enlisted soldiers, under any circumstan-  
ces whatever.  
New York, June 28.—Gen. Scott's wife  
died at Paris on the 10th of June, aged 72  
years.  
New Orleans advices state that trade is gain-  
ing strength. Quite a number of rebel volun-  
teers were taking the oath.

**INDIAN MASSACRE.**—The cruel murders  
perpetrated at Rock creek last week have  
created a general feeling of indignation  
among our citizens, and the general ex-  
pression is, that the prowling savages must  
be effectually wiped out. We have received  
a letter from J. W. Lemons, of Deer creek,  
giving the particulars of the sad affair, a  
portion of which has been heretofore pub-  
lished. From this letter we learn that the  
savages were seen and slain.

**MISSISSIPPI VALLEY.**—The cotton harvest at their pa-  
triotic work. The prospect was sad for us,  
but when the news reached England, a war  
of sorrow will arise that will shake the  
foundation of the ancient throne. The de-  
struction of the crop on hand, and the fail-  
ure to plant this season, will open her eye-  
to the folly of her position. In ten days  
there will not be 10,000 bales in the whole  
Mississippi valley, and none planted. The  
golden time has passed when England might  
have saved herself, but she would not; the  
fruits of her folly, must rest on her shoulders.

**ON THE POLICY OF CONVICIATION.**—The  
movements in Congress having in view the  
confiscation of Southern property, as  
measures of retaliation, have occasioned  
an excited discussion in the Eastern pe-  
riodicals. A Baltimore paper says, with much  
force:  
It will not do to rely on confiscation;  
but on taxes, to produce any really large  
amount to pay off debt, to support credit,  
or yield an income. All changes of own-

**Corrosive Remarks.**—A correspondent of  
the Little Rock True Democrat, writing  
from Memphis details what he saw on the  
steambot Alonzo Child, while on the way  
to that city. He says:  
After leaving Helena, we came to the  
cotton barge; several large steamers sent  
out by the Government to burn all the cot-  
ton to be found anywhere on the river. A  
dreary, desolate view it was—the rubbishy  
blackening bales floated past us, and in  
some places the river for miles was covered  
with bunches of raw material in the thick-  
ets that fringed the water were whitened  
as if many drifts were piled up against their  
green foliage. The heart sickened at the  
sight—the bale that necessarily had forced up-  
on us, and of volumes of black smoke,  
weathered up far ahead, the conviction was  
irresistibly forced upon all present that we  
were in the great theatre of the war, where  
blackness and desolation meet you at every  
step. The flames were kindled by the  
sawdust and the bales were left tenants  
less and desolate, the only living things to  
be seen were the cotton barge at their pa-  
triotic work. The prospect was sad for us,  
but when the news reached England, a war  
of sorrow will arise that will shake the  
foundation of the ancient throne. The de-  
struction of the crop on hand, and the fail-  
ure to plant this season, will open her eye-  
to the folly of her position. In ten days  
there will not be 10,000 bales in the whole  
Mississippi valley, and none planted. The  
golden time has passed when England might  
have saved herself, but she would not; the  
fruits of her folly, must rest on her shoulders.
