

**MORE CATTLE KILLED BY INDIANS.**—Information reaches us that several head of cattle were driven off by Indians, from Kneeland's Prairie, last week. A party of settlers gave chase and came upon the Indians after they had slaughtered the cattle and while they were jerking the beef. The approach of the white men was observed by the Indians who made off in time to escape punishment.

We also hear that a number of cattle owned by Mr. B. Lack of Hoopa, were run off recently by Indians from near the mouth of Willow Creek.

The war is not yet ended.
