

THE INDIAN TROUBLES.—It is very evident that some move must be speedily made to protect the inhabitants on the southern and western Trinity border. Trinity river is totally deserted from Taylor's Flat to its junction with the Klamath, and unless steps are speedily taken to guard the settlers in Hay Fork valley, they too will be obliged to leave. Either one of the companies now in Humboldt county must be sent to protect us or another will have to be raised for that purpose. We hope between the Governor and Gen. Wright something will be speedily done.
