

**PROMISED SUCCOR FROM INDIAN DEPREDATIONS.**—Mr. Whipple, whom our citizens delegated to ask assistance towards suppressing Indian difficulties in this county, was unable to return upon the steamer of yesterday as was expected.— He writes regarding the matter as follows: "It is impossible for me even now to say just in what shape assistance will be rendered our citizens; but we are sure of either Federal or State troops—perhaps both. The latter is what I am laboring for, and am in hopes of accomplishing. The portentous news from the East makes it impossible for me to hasten the movements of officials."
