

INDIAN FIGHTING.—We have received the subjoined letter from Capt. Harmon A. Good, dated Deer Creek, August 18th: "We left camp on Deer creek Tuesday last; on Thursday following discovered and routed the remnants, about seventy in all, of the same company of Indians on Mill creek that we had left ten days previous on Antelope, killed four and captured twenty-one prisoners—eleven squaws and ten children; traveled same day to twenty mile hollow; were attacked early Friday morning by Indians, who fired fifteen shots at us. They killed three of our horses and scalped them, but we did not lose any men, killed, wounded, or prisoners. We arrived in camp here yesterday, but have not yet received any orders respecting our prisoners. I wonder if we must hunt and keep them in the bargain?"
