

~~Shot at by Indians.~~—The Shasta Courier says that Messrs. Phillips and Dutke, well known citizens of Trinity county, were recently fired on by the Indians on the North Fork of Trinity river. These gentlemen were in pursuit of stock at the time, and say it is the first instance of the kind that has occurred.

Largest and best Black Sand lot brought at the
highest Prices.
JAS. J. OIT.

NEW YORK PRICES.

Nevada Democrat.
Oregon News.—A dispatch from Port-
land, Oregon, of August 20th, received by
way of Yreka, says:
The steamer Carrie had arrived last
night from the Columbia river, bringing
news to this effect that the Indians are
threatening to capture the Cascades, which
post has lately been abandoned by the re-
moval of Capt. W. Allen's company, 4th In-
fantry.

The news from the Nez Perce mines is
still encouraging. The steamers have quit
running to Lewiston, but Tracy's last Over-
land Express brought some forty thousand
dollar in gold dust. News miners have been
discovered on the south fork of the Clear
water. It is reported that the mines are ex-
tensive, enough to give employment to 20,
000 men.

Tribute is apprehended from the Indian,
and their annuities.
The advance trains of the Fall immigra-
tion have reached Walla Walla and have
had no trouble with the Indians.
The Union Guards, a volunteer company
of this city, have drilled twice a week.
They have lately been well supplied with
arms, by order of Gen. Shinnick.
The appointment of Col. Baker to a Gen-
eral's rank, and the probable appointment of
John Lane in his stead as Senator, creates a
great deal of talk among the people.
The City Council has recently passed sev-
eral ordinances which virtually give power
to the adverse claimant of the city—betwe-
en the erection of fifteen or twenty commercial
houses, between the last few days.
Apples are selling at 20 cents a bushel
and the market is crowded.

Gen. Lyon.—The following sketch of
Gen. Lyon, who lately fell in battle in south
western Missouri, was published some weeks
ago.
Nathaniel Lyon was born in Connecticut
in 1821, and entered the Military Academy
at West Point in 1837, where he graduated
four years afterwards, with the rank of 2d
Lieutenant of the 2d Infantry. In Febru-
ary, 1847, he was made 1st Lieutenant, and
took gallant part in the battle of Contr-
eras and Chetumal during the August fol-

Particulate of the Battle of Springfield.
The special messenger who brought the
official report of the battle near Springfield
to St. Louis, gives the following verbal ac-
count of the action:
Early on Saturday morning, Gen. Lyon
marched out to Springfield to give the en-
emy battle. He came up to them on Day's
creek, on Green's Prairie, a few miles south
west of Springfield, where he had taken a
strong position on rolling ground. At 6
minutes past 6 o'clock in the morning, Gen.
Lyon fired the first gun, when the battle
immediately began. Betwee noon and 1
was kept up for two hours, when two of
Capt. Totten's guns proving too severe for
the enemy, they gradually fell back toward
their encampment on Willow Creek. Gen.
Lyon had taken position on the enemy's left
flank, and Gen. Sigel's artillery on the
right.

Then began a terrific attack that spread
slaughter and dismay in the ranks of the
enemy. They were pursued to their camp-
shells from Capt. Totten's gun setting fire
to their tents and wagons, which were all
destroyed. A Louisiana regiment and a
Mississippi regiment seemed to have suffered
most in the night, and were almost entirely
annihilated sometime in the afternoon.
As Gen. Lyon was leading on his column,
his horse was shot from under him. He
immediately mounted another, and as he
turned round to his men, waving his hat in
his hand, and cheering them on to victory,
he was struck in the small of the back by a
ball, and fell dead. The command then de-
volved on Gen. Sigel.

Pursuit continued until daylight, when
our little army rested for the night in the
encampment of the enemy.
On Monday morning, 11th August, fear-
ing that the enemy might recover and at-
tempt to cut his command off from Spring-
field, Gen. Sigel fell back on that city, where
the Union Guards were stationed. On
reaching Springfield, fearing a terrific great
number of the enemy might induce them to
get between him and Rolla, Gen. Sigel con-
cluded to fall back upon Rolla with his pro-
vision train, and wait the reinforcements
which were on their way to join him.
Up to the moment of the departure of the
messenger the enemy had not been seen, and
it is probable that Gen. Sigel has not been
disturbed in his march. 900 of the rebels
were captured, among whom is a Colonel of
distinction. The messenger could not re-
