

WANTED THIS WAY.—J. Ross Browae;
the noted traveler, is said to be authorized
by the Government to examine into the
management of Indian matters on this
coast, and for this purpose will visit the
various reservations and scenes of dis-
turbance in this State and Oregon, and
in the Territories of Washington and
Idaho. It will be recollected that this
gentleman was for a time special agent
of the Government on this coast under
Buchanan's administration, and for bold-
ly exposing some official rascality was
removed. Since then he has been travel-
ing in Iceland, northern Europe, etc.,
and but recently arrived in San Francis-
co. We hope he will visit this Indian-
accursed section, and also Smith River
Reservation, and see if he will be able to
impress upon the General Government
the necessity of removing these Indians
to some distant point.
