

VISIT FROM INDIANS.—Steve Noble, of New River, informs us that on Thursday of last week four Indians made their appearance, direct from the Hoopa Reservation, each armed with a gun and pistol. They visited a China camp, ordered dinner, and while the Johns were cooking it helped themselves to clothing and such other articles of value as they desired, and decamped. We think it would be a good time for the New River people to establish the precedent of killing every Indian who shows himself.
