

KIBBE—REVIEW.—Adjutant-General Kibbe, who has been sojourning here and at the camp, attending to the onerous duties devolving upon him in his official capacities, went below the other day. He will doubtless return in company with the Commander-in-Chief Governor Stanford, and other members of his Staff, who will probably review Gen. Bidwell's command at the camp, on Wednesday, the last day of their encampment. General Kibbe is justly entitled to the encomiums of the press of the State and the thanks of her people for his exertions toward placing the citizen soldiery on a better footing.
