

THE YUBA INDIANS.—A writer in the Marysville *Herald*, from Empire Ranch, Oct. 26th, says that Col. Henly and Sub-Agents have been in this vicinity for the past few days, to remove the Indians to the Nome Lackee Reservation. This morning one hundred and fifty left. Col. Henly is deserving of much praise. Notwithstanding the difficulties encountered, he has succeeded in removing some of the most aged and infirm, whose heads were whitened with the frosts of one hundred years.

FROM YREKA.—The *Shasta Republican* says that Captain Jacob Rhodes has organized a company in Yreka for the purpose of taking a part in the warfare which now exists with the Indians. The company consists of twenty-five picked men. On Wednesday last it was to have marched for Rogue River Valley. It is the intention of Captain Rhodes to scour that region of country. We have no doubt he will do good service. On Wednesday last several wagons, heavily freighted, arrived at Yreka from the Sacramento Valley, via the new wagon road. The road is in good condition, and travel will continue over it until the snows begin to fall.
