**RELIEF FOR SUFFERING AND DESTITUTE  
INDIANS.**

Through the indefatigable exertions of George M. Hanson, Superintendent of Indian Affairs, coupled with the donations of citizens, the condition of the poor savages in the North, to which attention has been repeatedly called in these columns, promises speedily to be ameliorated. The charitable movement now fairly inaugurated will not, we hope, be suffered to die out through lack of further effort on the part of citizens. On yesterday the Superintendent shipped, per steamer Panama, to the most destitute of the Indians under his charge, eight hundred and ninety-one garments, comprising cast-off clothing of every description and size, suitable for bucks, squaws and papooses. These contributions have all come in during the last fortnight or three weeks. Eight hundred of the Indians, recently taken from Humboldt Bay to the Reservation, were prisoners at Humboldt, and almost in a state of nudity. The lot just shipped will give to each person in want one garment. Now that the winter is close at hand, the Superintendent particularly desires to send on further contributions at once to Round Valley, in which is the Nemo-Cult Reservation. It is of the last importance that this second consignment of clothing go forward immediately, inasmuch as Round Valley is almost inaccessible after the first fall of snow, lying as it does far above the level of the sea, and in the wilds of Mendocino county, some forty miles inland, and only reached with difficulty at any season of the year.

Yes, and "through the indefatigable exertions" of the Indians they are all, or nearly all, back in this county where they were taken from. Truly, the "donation of citizens" and the influence of the *Alla*, coupled with the Superintendent's "humane" exertions, have worked wonders toward ameliorating the deplorable condition of the poor savages of the North. The *Alla* bids fair to rival the *Bulletin* in digger sympathies. The cargo of "cast-off garments" shipped on the *Panama* may serve to show the Department at Washington that Smith River is a fine place for a Reservation, and induce Congress to purchase it. As to the Indians taken there from this county we wish Mr. Hanson's pet newspapers to understand that most of them are back.

## Building upon the Band.

'Tis well to woo, 'tis well to wed,  
For so the world has done  
Since myrtles grew and roses blew,  
And morning brought the sun;  
But have a care, ye young and fair—  
Be sure you pledge with truth,  
Be certain that your love will wear  
Beyond the days of youth—  
For if ye give not heart for heart,  
As well as hand for hand.

The Wilmington, N. C. Journal (rebel)  
says that seven regiments of negroes,  
which have been in camp of instruction  
under white officers for three months,  
and which have become remarkably pro-  
ficient in drill, have arrived to garrison  
the town and fortifications during the

era anchored within effective distance of  
the battery. Cannonading was resumed  
by the Hatteras and two schooners,  
causing so hot a fire that shortly after,  
in a council of war in the fort an evacua-  
tion was determined upon, and accom-  
plished, after spiking the guns. At 8  
o'clock the Federals landed and took for-  
mal possession. The same letter states  
that Capt. Kittridge, commander of the

## The Romance of War.

There was quite a romantic little  
incident which occurred in connection  
with the recruiting of Capt. Boardman's  
company, which deserves at least a  
notice:

While Lieutenant Grannis was  
fully occupied with recruiting at  
Berry Point, Clayton county, last  
week, a smooth-faced boy came into the
