

THE INDIAN WAR IN THE NORTH.—The company of troops which took the field in the north several weeks since, have been of efficient service in subduing the refractory Indians in northern California. In the late skirmish at Yager Creek, says the *Humboldt Times*, three ranches were stormed, five bucks killed, and five bucks and twenty-one children taken prisoners. Among the bucks captured were some who had been wounded in the fight on Mad river, and they say that most of the Indians who have been engaged in the depredations on Trinity trail are now on the head waters of Mad river, Yager creek and Van Dusen's fork. The correspondent informs us that there is no doubt but the Indians are in a position where escape will be impossible, and their capture is almost certain. He further says, that the prisoners will be sent to Eureka or Union, where Col. Henley has promised to receive them, and provide for them on some reservation. Capt. Messick is in command of the troops.
