

EXTERMINATION ADVOCATED.—The *Chico Courant* recommends the arming of a sufficient number of men to wipe out of existence the mischievous Indians inhabiting the Eastern counties of this State, Nevada and Owyhee, and says a sufficiency of men are ready to undertake the job if subsistence is guaranteed them. The *Bee* seconds the plan, and from a very fair experience we recommend it as the only certain method of civilizing the red-skins. If occasion ever calls in this section again, we think that course will be pursued, and we warn Father Beeson and his brother humanitarians to keep out of the way and avoid any "accident" which might result from interference.

DISCOVERY OF A RICH GOLD-REARING LEECH
