THINGS IS MOVING.—The times are looking up in the mines. All the rivers are going down, and so are the miners, except those that are frozen up in the Sarah Navadees. We have a small show of this in the following correspondence :

‘Diggings’ and ‘Diggers.’

STRAFFORD BAR, }
North Fork, May 25, 1850. }

On Saturday last I wrote you that the weather was very hot and river high. The past week has been much cooler, and the water has been falling since Sunday, and is now quite low, yet not sufficiently so as to allow the miners to go on with their work to any advantage.

On Wednesday a party of men were out some five or six miles ~~from the river~~ from the river in search of deer, when they suddenly came upon a body of Indians, 200 in number, they say. They made the best of their way back to camp, without being seen by them ; and the next morning they, with some others, went in search, intending to give them battle. They spent most of the day without seeing any of them, and they separated. On their way home, five of them came upon a few Indians, and fired upon them before they were seen. The Indians ran, leaving five dead upon the field and one squaw, who was too much frightened to run. She, with a year old boy, were taken prisoners and brought into camp at about sundown. The squaw seemed quite contented with her condition, no doubt thinking it preferable to being shot, as her companions were. She is the worst looking specimen of human nature that I have seen yet — far worse than the same tribe in the Southern mines — her hair filled with pitch and sand and nearly

—her hair filled with pitch and sand and nearly naked, covered only with a piece of blanket.— The party who captured her removed her to their tent, fed her well and gave her a blanket. The next morning she asked if she might “vamos.” They told her yes, and she backed her boy and made tracks over the hill in a very quiet, sober way, as if she had entirely overcome her fears of the white men. I fear there will be trouble yet in this quarter of a serious nature, for the Indian and the white man cannot well live together; they seem to be, at least in this part of the country, sworn foes, kill each other wherever they meet. I suppose this will prove quite a long enough letter from this quarter.
