Foreign Intelligence.

Germany.—The Princess of Schwarzburg Rudolstadt Schwarzburg, and four reigning Princes of Reuss have ceded their rights of sovereignty, in order to advance the unity of Germany.

Denmark and the Duchies.—Several ministerial conferences have taken place, at which His Majesty and a Chamberlain were present. Their conferences, we are assured, have for their object peace with Germany, and the Government is engaged in the conclusion of a treaty of peace with the Cabinet of Berlin.

Austria.—We learn from Vienna that the Church Question will be one of life and death. So exasperated are the minds of men upon the subject, *The Lloyds* says, that the general interests of all, whatever creeds they may profess, now call for the separation of all churches from the state, for that liberty now granted to the Church of Rome necessarily involves the removal of all restrictions from the other communions.

Russian Indemnity.—We are informed that the original demand of Russia for the assistance given in the Hungarian campaign was 17,000,000 of roubles, and that its reduction to 3,700,000 roubles is owing to the mediation of Count Zichy.

Turkey.—Disturbances have broken out in Bagdad and the neighboring cities of Syria. As it is however, confidently expected, from the firmness of the Government of Bagdad, and the prudence of the Commander-in-Chief of the troops that it will soon be quelled.

A fact unprecedented in the annals of Ismalism, has just taken place at Constantinople. The Sultan has decorated eight Greek Arch-Bishops, as a satisfaction at their zeal in the discharge of their duties.

THE CALIFORNIA QUESTION.—The *Tribune* of the 28th of May, in a *resume* of the news for the steamer, alludes to the California topic after this fashion:

“Another week—since the departure of the last steamer for Chagres—has witnessed little progress toward the admission of California. The Omnibus Bill of the committee of thirteen seems to be slowly gaining ground, though it is still assailed by a rancorous southern opposition. Mr. Clay has taken a firm

stand in its defence, and will not recede. The President's plan embraces the immediate admission of California, untrammelled by the territorial and Texan questions. It is said that the ultra southern members of both houses will oppose the admission of California as a free state, under any circumstances. The discussions and dissensions on the subject will probably be brought to a head in the course of next month, since the annual appropriation bills, which the more designing southern members intend using as a handle to be worked in favor of slavery extension, must be passed before the 30th June. The loyal and dignified position which California continues to maintain, has won her the admiration and respect of her friends on the Atlantic side of the continent. They trust that her time of probation is nearly over.

Doings at Trinity City.

Affairs at this place as well as through the Valley of Tuolumne, are daily increasing in interest. The following extract of a letter to a respectable house in this city, dated at Trinidad City, July 2, gives a lucid account of matters in that region :

"A party left here a few days since for the diggings, and when within five miles of the place were attacked by some Indians. A few days after a second party started for the same place, and on coming up to where the first party were attacked they found two of them severely wounded, a halt was made there and Major Smyth Clark went into town for assistance. On the following morning the Major headed a party of six men, and at sun-down arrived at the camp, where a light breastwork had been thrown up under the superintendance of Major Rowe, late of the U. S. Army. The wounded men were properly cared for by Dr. Anderson, who accompanied the expedition. Mr. Thos. Ghion was pierced with seven arrows, and received a severe cut in the head from a hatchet. Mr. Ezra Hoyt was wounded with four arrows. They were brought into town on mules and are now doing well. While the wounded men were being cared for a party of 50 men started off after the Indians; they killed two and took three prisoners, they burnt eleven houses or wigwams after taking all the curiosities out of them. We all returned to camp the same day, and an hour before sun-down the three Indians were fairly tried by a jury and condemned to be shot that night. The sentence was duly executed, and the bodies decently buried.

We heard to day from "Humboldt" that the Indians at that place had scalped a white man.

To-morrow an election will take place for Justice of the Peace; W. W. Hawks is the only candidate, his election, of course, is considered certain."
