Daily Alta California, Volume 1, Number 273, 1 November 1850 — Returns front I imm County. [ARTICLE]

### Returns from Trinity County.

is indebted to the attention of Messrs.

We are indebted to the attention of Messrs. J. E. Low and T. J. Roach, the former one of the judges of election at Eureka, the latter at Trinidad, for the following returns, which are official, as far as they go. There was no poll held at Klamath, and no returns had been received from Humboldt, Weber Creek, Salmon Creek, Ross River, and other places. The notice of the election was received at Trinidad only the day previous to holding it, and at some precincts no ballots were received, so that the votes thrown were all thrown for county officers. But little interest was felt in consequence, and the vote therefore gives but a partial exhibit of the strength of those places.

THE INDIANS AT TRINIDAD.—Mr. T. J. Roach, who left Trinidad last Sunday, informs us that the Indians are very hostile. A short time since eight men started for the mines, and just before he left some Indians came in and reported that four of them had been killed. After Mr. Roach had reached the beach the following letter was delivered him by an Indian, who confirmed the report :

MR. T. J. ROACH :

*Dear Sir*—Another Indian has just come in and tells us the same story about those men being killed at the forks that those did who arrived early this morning, and we cannot but think there is some truth in the reports. It is possible that the whole party may have been murdered ; and again it may be that none of them have been. Be that as it may, something should be done immediately for the protection of those passing to and from the mines, as well as others who are scattered about in small companies. We are very few in number here, as you are well aware—so small that we are all obliged to remain here to protect ourselves. If it is possible to have a small body of troops sent up here I hope you will attend to it and have it done. I have not time to say more, as the Indian who is to take this to you is waiting.

Please send back a note by the bearer of this if you receive it. In haste, yours,  
T. J. GILKEY.

UTILITY OF WHARVES.—Perhaps there is nothing in this city which speaks more truly of its progress than its wharves, with the vast amount of business transacted upon them. A great deal of labor and money has been expended upon them, and we are happy to find that their enterprising proprietors are likely to reap most grateful rewards for their energy, while every facility thus given the commercial interests of our harbor and the state, add to the credit and wealth of the city as well as the proprietors, and the permanent good of commerce in its widest range. Among these structures, Cunningham's wharf stands among the first for convenience and amount of business. The ship St. Patrick from New York discharged at this wharf 1800 tons of freight in twenty days. This is dispatch.

**ARRIVAL OF THE REPUBLIC.**—The steamship Republic, Capt. Hudson, arrived yesterday morning about 1 o'clock, in a passage of 22 days from Panama via Acapulco.

The R. passed off Cape Corientes the little steamer Gen. Warren, from Panama, from Panama for this port, and on the 23d, a quantity of spars and sails of a ship.

A number of the passengers of the Republic, on her last downward trip, died while crossing the Isthmus, among whom the following are reported: Col. H. A. G. Lee, John Weeks, Dr. Williams, C. L. Ash, Chas. Brown, and C. L. Smith.
