### MONTEREY CORRESPONDENCE.

MONTEREY CITY, May 8, 1852.

MESSRS. EDITORS :—But little of importance has transpired in this neighborhood since my last communication.

Jacob Mosier, suspected of killing Charles Peck, a short time since, at the Mission of San Juan, was arrested at Stockton, and brought back to this city. On Wednesday last he underwent an examination before a Justice of the Peace, and was committed to jail to answer the charge of murder. The only evidence against him is the dying declaration of Peck, who stated that Mosier shot him "without any cause whatever."

Trinidad Salas, a Spanish ranchero, was convicted of putting his brand on two cattle belonging to a neighboring ranch, and amerced in the sum of \$200.

Yesterday, Romao Ranzel, a Spanish youth, aged only fourteen years, charged with committing an assault with an intent to kill, on — Lina, with a butcher's knife, with which he inflicted a dangerous wound on said Lina, was held to bail.

The propeller McKim is the only vessel in port. She leaves for San Francisco "one of these days." A. R.

FROM TRINIDAD—INDIAN DISTURBANCES.—By the arrival yesterday of the schooner Pomona, Capt. Terry, in four days from Shoal Water Bay, touching at Trinidad, we have later news from that important portion of the State.

The rumor of the appointment of our old and esteemed friend and correspondent, THOMAS J. ROACH Esq., to the office of county judge of Trinity county we are happy to find is confirmed; and we are glad to perceive also that he has at once proceeded to organize the court and will speedily hold a first session.

Packers are coming in from the Upper Klamath, Scott's, and Salmon River diggings, bringing not only good returns in dust, but most cheering news of good prospects for the future.

prospects for the future. Hundreds are flocking in upon the Salmon and Klamath from all directions, and damming, sluicing, and long toms are doing the work to perfection. It is estimated, by those who ought to know, that those diggings will yield, this season, more abundantly than ever. The numbers at present working on those rivers is sufficient proof of the richness of the placers.

The trail from Trinidad to the mines is now being improved and shortened, so as to give easier and better facilities for reaching the mines than from any other point.

We regret to learn by this arrival that Indian disturbances have been somewhat frequent of late, though from the great number of whites now residing in that section no serious interruption of mining or business is anticipated. We learn that a party of Indians have been detected stealing on the Klamath and that they also threatened to kill some whites. They were immediately pursued, overtaken, and some thirty Indians killed. It is also stated, with how much truth we cannot pretend to say, though we see no reason to doubt it, that some seventy Indians have been killed recently on the Trinity for similar offences.
