Nichols, J. M. McBrayer, J. L. Craig, J. A. Ralston, J. M. Elliott, J. F. Madden, Col. J. T. Hall, James Carrico, F. W. Thayer, H. Anderson, Col. F. Forman.

**RELIEF OF EMIGRANTS.**—We learn that the Governor has concluded to send out one half of the appropriation for the relief of emigrants, by the Marysville road, and that John Bodley, Esq. goes in charge of it.

The Marysville road is undoubtedly much the shortest and best, and Mr. Bodley is thoroughly acquainted with it. The Governor could not have selected a better manner to expend a moiety of the appropriation.—*Express*.

**MORRIS RAVINE.**—We have received a letter from a friend at Morris Ravine. It states that the deep diggings lately discovered there are proving very good. A number are making very good strikes. A number of families are expected to arrive on the ravine shortly, and our correspondent congratulates the place, not forgetting himself, on the fact. Claims are selling at a good price, and miners are daily arriving at the diggings.—*Ib.*

From the Nevada *Journal* of Saturday we learn that Judge Lynch has been holding a session in the western part of that county. Four Indians, charged with the murder of Martin Hopkins, were tried by a people's court at Wilson's Ranch, and three of them sentenced to be hung, which sentence was duly carried out. On Monday a man was flogged at Newtown, having been convicted of theft.

The miners on the ridge dividing Bear river from Steep Hollow, at a place called Little York, are represented to be making handsome profits.

Signora Biscaccianti's last concert at Marysville on Friday evening was highly successful.
