

appear to set well upon the stomach of the
Ledger.

SHASTA.—Adams & Co. have furnished us with a copy of the *Shasta Courier* of Feb. 25th, from which we clip and condense the following:

NINE INDIANS KILLED.—We are informed by Mr. Gardner Brooks, that on Friday the 17th inst., a party of nineteen white men started from Mr. Casey's ranch on Clover creek, for the purpose of whipping a number of Indians, who, the day previous, had stolen some stock from Hooper's ranch, on Oak Run. The first rancharie they attacked, contained but one Indian man, whom they killed. They next fell upon the rancharie of the tribe headed by "Whitossa," killing eight men, and seriously wounding five others.

RAIN fell in copious quantities on the 20th, 21st and 22d February, and as a consequence, every mining locality in the county is plentifully supplied with water for the time. A greater amount of dust has been in circulation during the ten days last past, than at any previous period during the wet season.

A MEETING of the miners was held on the evening of the 18th February, at Middletown, for the purpose of organizing a company to introduce the water of Clear Creek into the dry diggings around Middletown, Horsetown, Muletown, Texas Springs, &c., &c. An adjournment was had to the 4th inst., and primary meetings would be held meantime, at interested localities, to appoint delegates thereto.

SHASTA.—The *Shasta Courier* contains an able editorial against the Senatorial question, from which we make the following extracts:

"On the outside of to-day's paper will be found the proceedings of Democratic meetings, held in this place and in Weaver'sville, Trinity
