

EL DORADO.—Friends from El Dorado inform us that the Senatorial question is a one sided affair in that county among the Democracy—all, or nearly so, are against it. Handbills have been posted, calling opposition meetings in every precinct in the county. A large meeting was held at Diamond Springs on Saturday, also, one at Coloma, at each of which resolutions passed condemning the attempt to bring on the election, and instructing their delegation to vote against it. We have not room this morning to give the proceedings.

The *Mountain Democrat* is filled with matter against the election, and against the course of a majority of the delegation from that county. In behalf of the old line Democracy, it offers that Mr. Stephenson, who opposes the election, will resign and go before the people on the issue, if either of the members voting for it will do so. The Democracy, too, offer to pay the electioneering bills of the Broderick men that will resign and try the strength of the question in that county, before the people.

Mr. J. W. Park, of this county, has also offered to resign and canvass this county with either of his colleagues who dare resign and meet the question before the people of Sacramento county.

**TWENTY-TWO INDIANS KILLED.**—We are informed by Messrs. Jeffreys and Pope, who are just from Pitt river, that the company of settlers, forty in number, that went out some days since under Capt. Johnson, with the design of whipping the Indians on McCloud river, attacked a party of twenty-six of them on Friday the 24th inst., killing twenty-two and severely wounding three others, one only having escaped unharmed. Many of the savages killed were wearing some of the clothing which they robbed from the large party of Chinamen whom they killed several weeks ago.—*Shasta Courier*.
