

FROM THE TEJON.—Col. Beall arrived in town yesterday evening, from the Tejon, and informs us that matters at the Indian Reservation are in a sad condition; that the Indians are leaving for their homes in the mountains and on the plains, and that the person in charge during Col. Henley's absence, has no control over the wild spirits that are around him, but the supplies and grain are being wasted in a shameful manner.—*Star*.

GOLD DISCOVERIES IN LOWER CALIFORNIA.—Don Juan Ramirez has just returned from a visit to Lower California, and has furnished us with the following items of news:

Gold has been discovered in large quantities in a place named Los Maritos; these placers were abandoned for want of water, but as soon as the rainy season sets in, they intend to recommence digging. In the valley of San Rafael, it was reported that an Indian found gold on the surface, and that he had brought in near a pound to San Rafael. If the discoveries of gold prove true, Lower California may hope for better things in future.—*Ib*.

A gentleman well known in this city, sent an agent by the name of Lawrence to Sacramento with a drove of sheep to sell on his account, and who effected sales to the amount of six thousand dollars, and left for Salt Lake, without paying over the money to his employer. Two persons were immediately sent in pursuit, who succeeded in overtaking the fugitive, and recovered about \$4,000 of the money. We understand that the persons have returned, but have not made known the fate of Lawrence.—*Ib*.
