Pretty much the same rule was adopted in estimating the value of products at this Reservation that was used at Moondocino Reservation

I Certify to the best of ^{my} Knowledge and Judgment that the foregoing Inventory is correct

Int^d A Dracbelbis Sup^y Agt^t
of Indian Affairs of Northern
District of California

The enormous yield of Potatoes Carrots and Beets may seem fabulous, it is nevertheless true as great care was exercised in arriving at a correct estimate of quantity - of Potatoes five acres were dug yielding sixty thousand pounds - of Carrots an average square rod was measured producing three hundred and sixty five pounds and, the Carrots not fully grown

2917

21- France

Pay due to the Employees of the Mendocino Indian Reservation, from July 1st 1860, up to Sept. 30th 1860.

J. M. Ames.	\$ 375. 00 cts.
R. Schepel.	" 180. 00 "

In estimating the value of products the market price at San Francisco was adopted with the addition of Transportation from thence to the Reserve.
Potatoes Carrots Buts Turneps &c. estimated at about one half the value of Grain for Indian subsistence

I hereby Certify to the best of my knowledge and judgment that the foregoing Inventory is correct
