

CHINESE MORMONS.—The knowledge of California affairs among our Eastern brethren is no less exact than astonishing. As an instance we notice in a late exchange that a company of Chinese were on their way from San Francisco to Utah, having been converted to Mormonism. There is doubtless every prospect that Brigham Young will be speedily deposed, and that a long queued Celestial will reign supreme over the harem of the defunct Governor.

COLORED CONVENTION.—The darkeys of Troy have recently held a Convention at Troy, N. Y., at which they took grounds in favor of the highest law, and wound up by giving in their adherence to the nomination of Myron H. Clark for Governor. The following amalgamation resolution we find in the recorded proceedings of the Convention.

Resolved, That we are in favor of the Women's Rights movement, our position at present, (viz: colored men and white women) being analogous.

CONTRADICTED.—Mr. S. P. Storms, as we learn by telegraph yesterday from Grass Valley, had arrived at that place in safety. The sanguinary report about King Weimer and himself turns out to have been a hoax from beginning to end. Mr. Storms reports everything prosperous at the Indian Reservation.

CALIFORNIA FLOUR.—The new steam flouring mill of Messrs. Terry & Hodges, on the Mokelumne river, turns out as excellent flour as can be found in California. It is said to be equal to the celebrated Haxall and Gallego brands, and that the number of pounds produced to the bushel of wheat exceeds the general average. The enterprising proprietors are being amply remunerated for their outlay.
