Further from Southern California.

The site for a new town at San Pedro has been purchased by some gentlemen in this city, who contemplate making improvements thereon. We regard this enterprise as one of great importance to this section of the country. The want of adequate facilities for the prosecution of our trade and commerce has been long felt, and we are gratified to know that capital has been invested at this point, which, aside from being much nearer our city than the present port, will possess every requisite for a safe and commodious harbor, when improved, and furnish our county with a seaport worthy of her importance.—*South. Californian.*

The city of Los Angeles is improving. Francis Mellus has resigned his position as a member of the Common Council.

The materials for the Pacific Salt Works have arrived at San Pedro.

TEJON.—The report from Tejon is that every thing is quiet—that the Indians since the arrest of Redman are satisfied that the laws shall take their course, and have gone to work as though nothing unusual had happened. They have confidence in our laws and are willing to abide by them.
