

FIESTA.—A grand Fiesta is to take place at San Luis Rey on the 25th, at which all the Indians of this county and vicinity will assemble to participate in bull-baiting, (sarcastically called by the native Californians, "bull fighting") and other manly sports peculiarly adopted to their race. As the "Eatonsville Gazette" informed the "Eatonsville Independent" of the intention of its editor to be present at a political ball, so, in the same words, do we announce our intentions to the Alta California, (which paper suggests to us the propriety of preparing the minds of the wild Indians for the election) "Let our fiendish contemporaries wince *we shall be there.*" Think what a chance we shall have against *Alta* a thousand Indians with their minds unprepared; would that you were here to assist us.
