\$5,203 00 The above is an account by Capt. Chas. Liscom against the State of California, allowed by the Board of Examiners, and paid by the Treasurer. This I hope will satisfy you that this DEMOCRATIC State Government is not so parsimonious as to refuse selicf to whole-souled men, who in time of Indian invasion, risk their lives, spend their time and money in storing peace and security to her citizens. At least Capf. Charles Liscom, who paid out of his own pocket \$4,493 in one campaign, and received pay from the State Government for the same and for his serces, the amount of \$5,203, should be evidence to the contrary. Capt. Liscom had in service seventy-five men for fifty days. From the following it will be sean that the accounts were allowed even under great disadvantages and doubt.

## Interrogatories before the Board of Examiners.

Capt. Liscom under oath. Question by Richard Roman, State Treasurer. How many men of the Company commanded by yourself subsisted on the rations of the Government? Answer. All except from four to six.—Question by Gen. Denver. How long were the men in Union Town? Answer. From sixty to seventy days, part of them, but from the time of enlistment to the time they were disbanded fifty days.

One of the Board of Examiners writes, "you will see by the questions propounded that we distrusted the correctness of the accounts, but they were so backed up with certificates and ouths, that we could not do otherwise than as we did. In justice to ourselves, however, it is proper to say that a large portion of the account was allowed by committees of the Legislature."

July 7-It paid.

F. T. LANSDALE.
